## PATENT INFORMATION

A provisional and design patent application has been filed as of June 2018. The patent search was performed by The Mars Rising Network. It was concluded that there is nothing similar to this product on the market, which means this unique toy could be patented and enjoyed by people everywhere.

## SUMMARY

This product is a doll body with 3 detachable animal heads –Rat, Squirrel and Raccoon, which is clothed in pajamas of 3 different colors- Blue, Pink and Orange. This doll comes with 4 accessory items, including a suitcase, plastic checkbook (to pay rent!), keys and mousetrap.

The doll has a push button mechanism on its belly, that when pressed activates an internal speaker that speaks various sentences, ie. “The check is in the mail”, “I am hungry”,

“I am tired”, and “Will work for food and a night cap”.

The purpose of this doll is meant as a type of gag gift, wherein it is supposed to be used in the office or home as a statement about rodents and creatures that we feel do not belong in our personal space, yet rodents and various unwanted creatures once inhabited our personal spaces before we barged our way into their space, thus kicking these creatures out of their rightful homes. It is the intent of this doll, which comes with the 3 detachable heads, pajamas, checkbook, keys, mousetrap and suitcase, to create a statement that we humans have invaded their space, and this doll, whether a raccoon, rat or squirrel, wants to move in with his suitcase filled with clothes, his keys to your house, a checkbook to buy anything he/she wants and a mousetrap for good measure.

The 3 detachable heads feature of the doll make it very versatile as a situation in office or home may lead someone to think of a squirrel, then a rat and raccoon. Different scenarios and environments conjure up various ideas of where to place this doll and who to make smile.

For consumers young and old, the PAWS Tenants doll will absolutely put a smile on a face, help others realize their place in this world and just simply add texture to an otherwise boring office atmosphere or home.

#### **About the Developer**

The inventor, Patricia Walker of Brooklyn, NY had an idea to turn normally shunned house guests into funny talking dolls. Patricia contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that she may see success with this great idea and turn it into a real product. She is actively seeking a company that would have an interest in licensing the product for a royalty.
